

Drug List – Contraceptives – Expanded Offering

ESI Merged Offering

Following is a list of contraceptives that are currently included in the Express Scripts' standard contraceptive expanded offering for the Preventive Items and Services Program. Beginning January 1, 2019, they will be covered at zero cost to female members aged 50 and under. Please note that Multi Source Brand contraceptives** are only available at a zero cost share when specific plan requirements are met. The list is subject to change.

Members: The terms of Duke's health plans will ultimately determine coverage and cost-sharing. For specific questions about your coverage, please call the phone number printed on your ID card. You can get more information and updates to this document at our website at www.express-scripts.com.
