

We are pleased to learn you have an interest in our Bright Horizons program.

The first step we would encourage you to take, is to schedule a virtual visit at the locations you have interest in and then register your child/ren to be added to the waitlist

[Schedule a Visit with Duke Children's Campus](#)

To register, you may create an account by clicking on the below link.

**Here's how to get started:**

Simply click [HERE](#) to go to our Family Information Center, where you can set up a secure family account enabling you to register your child for multiple Bright Horizons centers. *If you work for Duke University, Duke Health Care System or a Duke University Student - please select your employer as Duke University.*

Once this step is complete, your family will be fully registered with Bright Horizons and added to the center wait list. Shortly after we have received your registration, you will receive two emails from us:

1. A confirmation email that your registration fee was processed (\$35 per child).
2. An email confirming your registration was received for the center(s) of choice. This email will also include information on the enrollment process, with regards to space availability and enrollment offers.

For more information on the steps to register, [click here](#) to watch a helpful 8 minute video.
