TIAA Investment Options

TIAA offers the following investment options to help you build a diversified investment portfolio:

**Tier 1: Asset Allocation Funds for a ready-made portfolio**

Consider choosing the Target Date Fund with the target date closest to your expected retirement year or the year you’ll reach Social Security retirement age or the Balanced Fund that offers a fixed exposure to stocks and bonds.

**Target Date Funds: Vanguard Institutional Target Retirement Date Fund Series¹**

- Vanguard Target Retirement Income
- Vanguard Target Retirement 2015
- Vanguard Target Retirement 2020
- Vanguard Target Retirement 2025
- Vanguard Target Retirement 2030
- Vanguard Target Retirement 2035
- Vanguard Target Retirement 2040
- Vanguard Target Retirement 2045
- Vanguard Target Retirement 2050
- Vanguard Target Retirement 2055
- Vanguard Target Retirement 2060
- Vanguard Target Retirement 2065

**Balanced Fund: CREF Social Choice Account**

**Tier 2: Core Funds – to build your own portfolio**

These funds represent the primary asset classes and have been chosen based on their suitability for inclusion in a customized retirement portfolio. This option may be good if you are more comfortable diversifying your own investments. The positioning of funds according to relative risk is not to scale, but is intended to show the general progression of risk for funds in the different asset categories.

- **Conservative** (funds towards the top of this list have potentially more inflation risk and less investment risk)
  - Principal Protection²
  - US Fixed Income
  - US Equity – Large Cap
  - US Equity – Mid Cap
  - US Equity – Small Cap
  - International Equity – Developed Markets
  - International Equity – Emerging Markets

**Investment Performance and Participant Fee Disclosure Information**

The fee disclosure information which includes fees and services associated with the plan is available at hr.duke.edu/performance. To view or print a prospectus for current fund, visit tiaa.org/duke or you can also request a copy by calling 1-800-842-2252. The prospectus contains the investment objectives, risks, charges, expenses, and other information about the respective investment companies that you should consider carefully before investing. Please read the prospectus carefully before investing or sending money.

¹ Target Retirement Funds - All investing is subject to risk, including the possible loss of the money you invest. Investments in Target Retirement Funds are subject to the risks of their underlying funds. The year in the fund name refers to the approximate year (the target date) when an investor in the fund would retire and leave the workforce. The fund will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date. An investment in a Target Retirement Fund is not guaranteed at any time, including on or after the target date. Diversification does not ensure a profit or protect against a loss.

² An investment in a money market fund is not insured or guaranteed by the FDIC or any other government agency. Although a money market fund seeks to preserve the value of your investment at $1 per share, it is possible to lose money by investing in such fund.

How to Enroll in the Faculty and Staff Retirement Plan

The Faculty and Staff Retirement Plan enables you to contribute to your retirement on a pre-tax basis, Roth after-tax basis, or a combination of both. You can enroll in the Faculty and Staff Retirement Plan by following these easy steps:

1. Set up your payroll deduction as either pre-tax, Roth after-tax, or a combination of both, and designate your investment carrier(s).
   You can do this:
   - **Online:** through Retirement Manager at hr.duke.edu/retirementmanager
   - **OR**
   - **Paper:** paper forms are available at hr.duke.edu/forms/benefits

   **Pre-Tax Contributions:** When you contribute to the plan on a pre-tax basis, you pay no current federal and state income tax on the salary directed into the plan. It is important to understand that you are not avoiding paying taxes on these contributions permanently; instead you are deferring the payment of taxes until the time you receive a distribution from the plan.

   **Roth After-Tax Contributions:** When you contribute on a Roth after-tax basis, you pay current federal and state income tax on the salary directed into the plan; however, you can make tax-free withdrawals of your contributions—and any earnings—provided that you are at least 59½ and made your first Roth after-tax contribution at least five years earlier.

   **Contribution Amount:** You may start by contributing as little as 1% of salary per pay period, up to 80% of salary per pay period. If you would like to contribute your maximum IRS limit on a pre-tax basis for the year, you may enroll in the automated maximum program option. The automated maximum program option will calculate your maximum contribution for the year and at the beginning of each year adjust your deduction amount to reach the maximum limit. **This maximum program option is only available for your pre-tax contributions and will not automatically recalculate if you miss a deduction.**

   **Investment Carriers:** Duke offers a choice of four different investment carriers. Each investment carrier offers a full range of investment options providing you with the opportunity to build a diversified investment portfolio without having to spread your investments over multiple providers. The approved investment carriers are: Fidelity, TIAA, VALIC, and Vanguard.

2. Register with the investment carrier(s) you have chosen to select your investment options, set mail preferences, and designate your beneficiaries.
